

CREATION BAUMANN | HOSPITALITY

Hotel Astoria, Lucerne, Switzerland

Architects:
Herzog & de Meuron, Basel

Initial situation:
The guest rooms as well as the conference rooms required functional, aesthetical dimming and glare protection. Because the manner in which the building is constructed does not foresee any exterior shading, a new interior solution had to be defined.

Solution:
Création Baumann's Shield provided ideal glare protection in the guest rooms and Phantom ensured reliable dimming. For the conference rooms, Shadow was chosen for its glare protection qualities as well as for the manner in which it harmonizes with the architecture.

Products:
Shield, Phantom, Shadow
