DISCRETION
ENSURED

Fritax Tax Advisers, Geilenkirchen,
Germany

Architect:
Beate Wild, Interior Architecture

Initial situation:
Renovation work ensured that these tax
advisory were pleasantly open and light-
flooded, so that originally, foils had been
planned to guarantee the necessary
privacy.

Solution:
It was decided to opt for Création
Baumann's Gecko Crena UN. This high
quality adhesive fabric lends rooms a
warm atmosphere and makes them
friendlier - which was further supported
by painting certain walls in warm
colours.

Product:
Gecko Crena UN
