

CRÉATION BAUMANN | EDUCATION/CULTURE

Museum of Architecture of the Technical University of Munich, Germany, exhibition on architecture

Architect  
Sauerbruch Hutton, Berlin

Production year: 2006

Initial situation  
The Pinakothek of the Modern in Munich is also home to the Museum of Architecture of Munich's Technical College. In the event of an exhibition the rooms were to be separated by curtains that would not compete with the exhibits for attention.

Solution  
Our product Shade has a screen-like web structure as well as clearly defined folds. This fabric breaks the light flooding in from outside and thus separates the rooms in the manner desired.

Product  
Shade
