

CRÉATION BAUMANN | HOSPITALITY

PUBLIC COMFORT

All Nippon Airways co. Ltd., Airport Lounge, Fukuoka, Japan

Architect:
Keita Tamura / Azusa Sekkei co., Ltd, Tokyo

Initial situation:
The Airline Company ANA wished to create an airport lounge at Fukuoka Airport where passengers would be able to relax in a pleasant atmosphere prior to boarding their planes.

Solution:
A mixture of traditional Japanese and modern elements determine the atmosphere of this lounge that is divided into a "quiet" and a "communication" zone. Création Baumann's cushions support the relaxing setting; with Dotto serving as an excellent visual room divider.

Product:
Dotto, Piuma, Vana
