

# „GECKO GOES KIDS“

Day-nursery ‚Frechdachs‘ („Cheeky Little Monkey“), Zurich, Switzerland

Graphic artist:  
Trix Barmettler, Zurich

Initial situation:  
The building that is home to Zurich day-nursery „Frechdachs“ required large floor-to-ceiling glass facades ensuring privacy on the one hand and a child-just and flexible design of the extensive glass surfaces on the other.

Solution:  
A design set comprising different Gecko motives, measurements, and colours. The children’s creativity is encouraged on a daily basis, without losing overall creative control, for instance when the children are allowed to paint with finger colours. Depending on requirements, either largely opaque collages or playful theme and colour worlds can be created.

Products:  
Gecko Crypta, Gecko Crena Un, Gecko Crena Vario

«GECKO: THINK FORWARD» competition prize winner in the category „Innovation“.
