

CRÉATION BAUMANN | HOSPITALITY

ENCHANTING SERENITY

Takano Yuri Cohaku Spa, Aoyama,
Tokyo, Japan

Architects:
Nomura Co, Ltd., Yuji Hirata, Fumi
Habara, Tokyo

Initial situation:
An extraordinary spa ensuring relaxati-
on and well-being. The concept of en-
hancing further the beauty from within
of the spa visitors thanks to specific
exercises and treatments demands a
perfectly harmonized environment. An
atmosphere of calm was to be insured
but simultaneously, discreet surprising
elements were to be added.

Solution:
An enchanting fabric ceiling with a
playful Ingo Maurer lamp at its centre
simultaneously serves as an element
of surprise and a point of attraction.
Earth-coloured textiles dim the light
in the treatment rooms and convey a
feeling of security and peace.

Products:
Soprano, Dimmer peach, Scape
