

CRÉATION BAUMANN | HEALTHCARE

MEETING PLACE

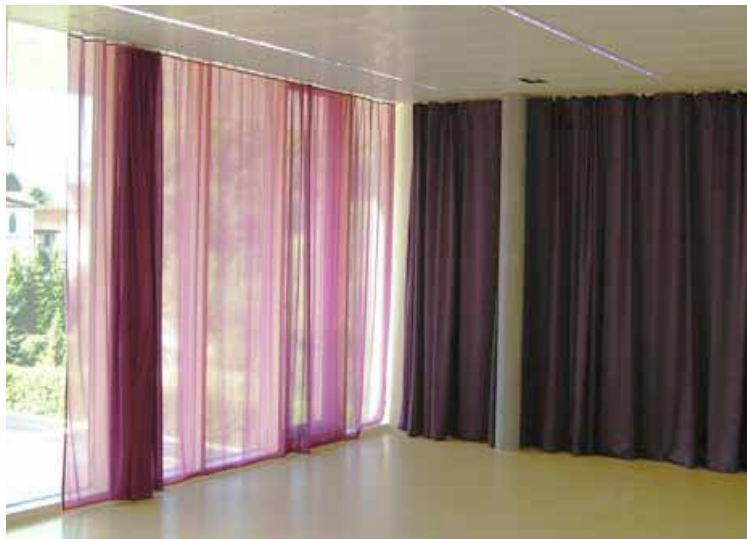

Meeting place, Psychiatric Clinic
Königsfelden, Windisch, Switzerland

Architects:
Liechti Graf Zumsteg Architekten, Brugg

Initial situation:
This newly constructed building is to serve as a lieu for discussions and the exchange of information; a meeting place for clinic staff, patients, their family members and the public.

Solution:
The materials used for interior decoration all offer a special surface feel. Thanks to the mainly warm colors of the fabrics used, despite the public character of the building, they ensure a feeling of security. Création Baumann curtains proved to be a perfect fit for this concept.

Product:
Sinfonia, Dimmer
