

CRÉATION BAUMANN | OFFICE

SCREENED VIEW

EFG Financial Products AG, Zurich,
Switzerland

Interior architect:
Roger Bechtiger, St. Gall

Interior decoration:
Wohnbedarf breu & bechtiger gmbh,
Frauenfeld

Initial situation:

Design of the headquarters of the company located in Zurich's Hürlimann area. The company is located on the ground floor, with the offices equipped with an end-to-end glazed facade allowing to observe the coming and going on the side street and in the patio.

Solution:

In order to create a warm atmosphere in the high-ceilinged, minimalistic rooms, a good textile solution was called for. The goal was to ensure privacy within the company and of the individual employees in general. The combination of broader and more narrow Gecko elements cleverly designs the rooms and allows sufficient light to enter into them as well as continuing to provide an outdoor view.

Products:
Gecko Crypta
