

Senior citizens residence Multengut,  
Muri, Switzerland

Architect  
Burkhalter Sumi Architects, Zurich

Production year: 2004

#### Initial situation

The senior citizens residence Multengut offers first-rate comfort and security. A beautiful draping dim out fabric used in the residence wing and the common rooms was to complete the stylish furnishing in a harmonious manner. For the offices, additional glare protection was required.

#### Solution

Our Dimmer product proved to be ideal for the dimming of the rooms. Where the common rooms such as the library were only separated from the other rooms by glass partitions, the fabric was put to use flexibly to ensure privacy. Moreover, our product Shield is used to prevent the glare of sunlight falling on to the computer screens in the office.

#### Products

Dimmer, Shield, Soprano
