

CRÉATION BAUMANN | HOSPITALITY

EXHALE AND
ENJOY THE VIEW

Vigilius Mountain Resort, Meran, Italy

Architect
Matteo Thun & Partners, Milan

Production: 2003/2004

Initial situation
Cars do not drive pass the Vigilius Mountain Resort. The calm and harmony of the landscape served as the source of inspiration for this architectural concept: The building was to be integrated harmoniously into its natural surroundings.

Solution
Primarily renewable construction and other natural materials were used for the construction work as well as in the interior decoration. Warm colours, generous forms, and clear lines underline the beauty of the Meran landscape. Dimming curtains (Dimmer) and cushion covers in the same fabric were used in the suites.

Product
Dimmer
